## **Environmental Policy**

### **Ambition**

**Hope & Aid Direct (HaAD) are committed to working with corporate partners to provide financial savings to these companies by minimising forthcoming UK legislative landfill charges (Emissions trading scheme), potential logistical costs and at the same time help support a company's environmental, sustainability and social goals.**

**This can be achieved by diverting their potential useful landfill waste and donating it through HaAD's logistical network to provide humanitarian aid for the relief of poverty and for the improvement of conditions of life to people who need it most.**
